POLITICAL COMMENTARY

22 Dec. 73 is the 2nd anniversary of the Ahleesh conference which coincides with a critical era in the history of Arab Nations.

The post october-war era is characterized by an American Zionist increasing pressure of settling the Arab Israeli conflict and the Palestinian question once and for all.

This solution will reflect itself in the Arabian Peninsula and Arabian Gulf region, especially in areas of conflict (Yemen & Oman) for the following reasons:

1 This region is the richest oil producing & oil conserving region at an era characterized by critical oil demand and present oil crises.

2 This region is controlled by ultra reactionary regimes

3 This region witness an advanced mode of popular struggle characterized by armed struggle in Oman and steadfastness of Democratic Yemen.

The past two years have witnessed heightened conflict between our people and the foreign colonialists.

The British colonialists introduced other foreign powers in Oman (Iran, Saudi Arabia, & Jordan), thus our people faces a multi foreign powers who turn Oman into common colony.

The aggressive war in Oman entered into pacification stage where the inhabitants

Dhofar (Mid Region) 6 Omani partisan deserted from the enemy army and joined the ranks in the revolutions on the 13 December, 1973. These partisans are:

1. Rames Salem Jaboub.
2. Ahmed Sohail Sharkh.
3. Ahmed Sohail Salem.
4. Salan Ahmed Majheed
5. Mosalam Ahmed Bernakeor.
6. Salim Ahmed Metaf

They fled from al-Namora Camp, in a landrover with their arms, composed of: four Klashinkof and seven rifles, with a lot of ammunition.

This desertion is not the first, and it shows the depth of contradiction between partisan and foreign and officers in the enemy army.

MUSCAT

Several spies and intelligence agents were liquidated in Oman by partisans. On the same day, during the celebrations on the occasion of Qadoos birthday, a huge fire flared in his newly built palace, which costs £205 million, two cars were seized and two guards were killed. The authorities kept silence on all these acts of resistance and prohibited its publication. On retaliation, wide indiscriminate arrests, (amounting to 50%) against partisans were launched by British and Jordanian intelligence.

BAHRAIN

The Bahraini Government is exposed to increasing popular pressure to release tens of political prisoners, held without

trial. The government released twenty on the occasion of opening the "Nation" Assembly, in order to avert attention from the rest of the prisoners and to release the popular pressure.

The release of the twenty proves that they were held illegally as hostages, to prevent the nationalist elements from uncovering the authority during the election campaign.

ABU DUBAI

The conditions of the masses are becoming worse, in the richest per capita country in the world! The rising prices are hitting people hard. The absence of foodstuff (especially rice) is a phenomena of daily life.

The U.A.E. government distributed certain quantities of rice among the different Emirates, and issued cards for the inhabitants. What followed is shameful! For the Sheiks confiscated the biggest part of the rice and left a tiny portion for the people, for example, in Al Fejra 100 bags were left for 1,000 persons.

In the meantime, the repression is accelerated. The Intelligence Force is busy in recruiting the unemployed young people and using more Jordanian criminals.

The Sheiks are feuding amongst themselves over the distribution of the new cabinet ministries. At the same time, each Sheik is practicing an absolute authority over his Shikdom, thus ignoring central directions from Sheik Zaid and suppressing his people.

MILITARY REPORT

The Military Report covers some operation between 2 to 12/12/73 (M.C. 508- M.C. 521) covering 11 operations against enemy forces and two air raids by enemy air-forces against civilians.

The mode of war was characterized by:

1. Bold attack on R. A. F. base in Salala on 8/2

2. Coordinated attack against enemy position in Sharakh (mu-region) to the North of Salala in which an R.A.F. transport airplan was destroyed on ground on 2nd of Dec.

3. Repeated attacks against enemy position in all the regions from West Etoost.

These attacks against the strongest and fortified enemy positions shows the high capability of P. L. A. supported by Milita.

It also uncovers enemy claims which has been spreaded in paid advertisements that the military activity of the Front has become limited.

The Stead Fastness of the Liberated Zone Inspired Popular Struggle Elsewhere

P.F.L.O.A.G. Hails the Law of Literacy Issued In P.D.R.Y.

Common Communique of National Front & Communist Party of Lebanon Support P.F.L.O.A.G. Struggle

A delegation of the Communist Party of Lebanon, headed by secretary General Comrade Nicola Shawi, visited P.D.R.Y. and held talks with a delegation of the National Front, headed by Secretary General, Comrade Abdul Fatah Ismail.

The following are excerpts from the Common Communique. The delegations received the imperialist reactionary dangers faced by the revolution

in Democratic Yemen, Oman and the Arabian Gulf and the policy of suppression and terror practiced by the Saudi reactionary regime, against the national democratic forces.

The parties emphasized the necessity of the unity of the national democratic forces in Democratic Yemen, Oman and the Arabian Gulf and Saudi Arabia in order to face the enemies of liberation and progress.

The Lebanese side denounced the plots woven by International Imperialism, Saudi reaction and its mercenaries, against the progressive regime of the Peoples' Democratic Republic of Yemen, and expressed their support to the armed revolution in the Gulf under the leadership of

P.F.L.O.A.G.

Political Commentary (Con't)

from the main target. The invaders are destroying source of living (farms, pasture, cattle, shelter) and attack civilians in order to evacuate the countryside and concentrate them in guarded positions.

The repression took a large scale characterized by campaigns of arrests which covered hundred of partisans, inhuman torture and mass secret trials where partisans are systematically liquidated.

All this is accompanied by political warfare in order to rally the support of the masses and isolate the revolutionary. Certain reforms are used as bait for the masses and intellectuals. The oil companies, Saudi Arabia, U. A. E. and C. I. A finance such projects where the jordanian cadres and officers supervise such projects.

In face of this complex war, the masses have been able through their experiences with new colonialism, their sufferings and the steadfastness of armed struggle make them realize how harsh the neo-colonialism is.

P. F. L. O. A. G. succeeded to preserve the Liberated Zone and acoerate attacks against enemy bases and camps. The Liberated Zone witnesses development in all fields in spite of the aggressive war.

This heroic steadfastness in face of multi-forgn powers inspired the masses and even the partisans among enemy. More are deserting the

client army. and joining People's Army.

The political conscience of the masses was sharpened, the political and economic struggles were heightened and covered broader masses.

The demonstrations, strikes and uprisings characterized this era and covered all regions (mini states) attracting people from different classes and strata (labourers, farmers women, religious peoples student etc.)

On foreign level, the freedom supporter, all over the world realized the just cause of our revolution and aggressive nature of the enemy thus our struggle is well known as struggle for national liberation and self determination.

International organization (W. P. C. O. A. A. S) Socialist States, Democratic states, supporting committees and democratic elements increasingly support our just issue.

These internal and external accomplishments are just marks along the long path of our peoples struggle because we realize that the imperialists and reactionaries wont give up their important interests easily.

LONG LIVE THE
PEOPLES STRUGGLE

LONG LIVE OUR
PEOPLE STRUGGLE.
LONG LIVE AHLEESH
CONFERENCE.

P. F. L. O. A. G.

VIETNAM

The Central Committee of P. F. L. O. A. G. sent a cable of congratulations to the Central Committee of the N. L. F. - South Vietnam on the 13th anniversary of establishing the front.

In spite of the Front's ability to realise the Vietnamese Peoples will, forcing the U. S. Imperialists and the Saigon puppets to sign the Paris Peace Treaty, which should be a major step to realize peace in Vietnam, we realise today that peace is threatened and is moreover, due to the U. S. policy of aggression and interference in Vietnamese internal affairs.

The cable expressed full support for N. L. F. and confidence in the Vietnamese peoples victory.

ITALY

L. Unita, Central organ of the C.P.I. published in its issues of the 2nd and 8th August, two long essays about our peoples struggle.

ADEN

The Central Committee of P.F.L.O.A.G. sent a cable of congratulations to President Salem Rubyya Ali upon issuing The law of Literacy Education For Adults.

(The British Colonialism enforced ignorance and backwardness on the Yemeni people the Yemeni government paid great attention to this problem and expended huge efforts, culminated by the issuing of this law.)

LONDON

The Union Yemenite Labourers (K.U.) and the Iraqi Students Society (London) issued joint statement denouncing the U. S. navy's antagonistic movements in the Indian Ocean and Red Sea, and the massing of enemy troops along the borders of the P.D.R. Yemen.

The statement expressed full support for the struggle of Democratic Yemen, Palestine and Oman and the Arab Gulf. The Yemenite Labourers

contribute £337 to P.F.L.O.A.G.
